PRODUCT DESIGNER

Gurugram, India aalexajmal36@gmail.com +91 84483 24638 Portfolio LinkedIn

Product Designer with 7+ years of experience owning end-to-end design across consumer internet, EdTech and SaaS. I design flows that convert and systems that scale: I lifted Wiom's wallet-to-bank transfer completion from 60% to 95% and built a web and mobile design system that cut dev time by 30%. I use AI as a force multiplier, not a shortcut, and bring a brand and motion eye to every product I touch.
